

OVERCAST STITCH

Sew Direction is Right to Left (Right Handed)

Best Use - This is the most common stitch. It may be used for seams in Wilton, Axminster and Velvet. It may also be used for cross seams in Wilton and velvet.

Advantages - Works well with all carpet types. A basic stitch that is easy and quick to sew and will produce the most feet per hour.

Disadvantages - This stitch will not control pattern run off. Carpet will tend to shift off pattern when using this stitch.
